

Appendix 9B

Summary of Significance of Adverse Effects

Appendix 9B

Summary of Significance of Adverse Effects

Introduction

A summary of the results of the assessment of the Historic Environment is provided in Table 9B-1.

Table 9B-1 Summary of Significance of Adverse Effects

Receptor and summary of predicted effects	Sensitivity/ importance/ value of receptor	Magnitude of change	Significance of Effect	Mitigation Measures	Residual Significance of Effect
Drove Road (HA169, HA224) – adverse effect due to physical disturbance	Low	Medium	Not significant	CH1, CH2	Not significant
Previously unrecorded archaeological remains	Unknown	Unknown	Unknown	CH3, CH4	Likely Not significant
Dun na Cuaiche (LB11543) (HA14) - adverse effects as a result of change to setting	High	Low	Not significant	None	Not significant
Old Lachlan Castle (SM292) (HA37) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant
Inveraray Castle Inventory designed landscape (GDL00223) (HA13) - adverse effects as a result of change to setting	High	Low	Not significant	None	Not significant
An Dun, fort 360m N of Strachur Church (SM3522) (HA16) - adverse effects as a	High	Negligible	Not significant	None	Not significant

Receptor and summary of predicted effects	Sensitivity/ importance/ value of receptor	Magnitude of change	Significance of Effect	Mitigation Measures	Residual Significance of Effect
result of change to setting					
Chapel of Kilbride, 240m SE of Kilbride Island (SM3337) (HA36) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant
Auchindrain Township (LB798, CA459) (HA31) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant
Dun Chonallaich, fort (SM5473) (HA71) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant
Dun, 260m E of Loch Glashan (SM10871) (HA59) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant
Dun Toiseach, dun 300m SE of Torran Farm (SM10872) (HA62) - adverse effects as a result of change to setting	High	Negligible	Not significant	None	Not significant

Receptor and summary of predicted effects	Sensitivity/ importance/ value of receptor	Magnitude of change	Significance of Effect	Mitigation Measures	Residual Significance of Effect
Ardchnonnell, Long Cairn, 1200m ENE of (SM4173) (HA39) - effects as a result of change to setting	High	Low	Not significant	None	Not significant
